***EXAMINER'S AMENDMENT/REASONS FOR ALLOWANCE***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1-12 (canceled).

Claims 15-23 (canceled).

The following is an examiner's statement of reasons for allowance: The examiner has found claims 13 and 14 to be unobvious over the prior art of record and therefore to be allowable over the prior art of record. The present invention relates to a method of promoting wound healing in a subject, said method comprising administering to said subject a composition comprising: a multi-layered glycosaminoglycan structure, wherein said glycosaminoglycan structure comprises a core of free glycosaminoglycan, a layer of crosslinked glycosaminoglycan strands surrounding said core; a charged molecule surrounding said layer of crosslinked glycosaminoglycan strands ; and an excipient. The invention also relates to a method of treating a glycosaminoglycan-mediated condition in a subject with said composition. The very relevant prior art documents (US 5,510,328 and US 5,766,631) to this invention discloses a method of promoting wound healing (by reducing and inhibiting wound contraction) in a subject, and discloses compositions for treating wounds, but neither documents (singly or in combination) disclose or suggest the use of the multi-layered glycosaminoglycan structure of the instant invention to promote wound healing or to treat a glycosaminoglycan-mediated condition.

Art Unit: 1623

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
